A woman is eligible if she:

- Is transitioning from the Pregnant Women Program;
- Is age 19-44;
- Is a U.S. Citizen;
- Is a Wyoming Resident;
- Is not eligible for another Medicaid program;
- Doesn't have health insurance;
- Must not have had a medical procedure to prevent pregnancy; and;
- Has an income less than or equal to 159% of the Federal Poverty Level

Are you eligible?

How to apply for the Pregnant by Choice Program:

Within 60 days of giving birth, a Renewal Form and Pregnant by Choice Questionnaire will be sent to determine if an individual currently on the Pregnant Women Program is eligible for continued Medicaid benefits including the **Pregnant by Choice Program**. Please complete and return the form.

Pregnant by Choice

Wyoming Department of Health

Wyoming Medicaid

Pregnant by Choice

A Family Planning Program for Women Ages 19-44

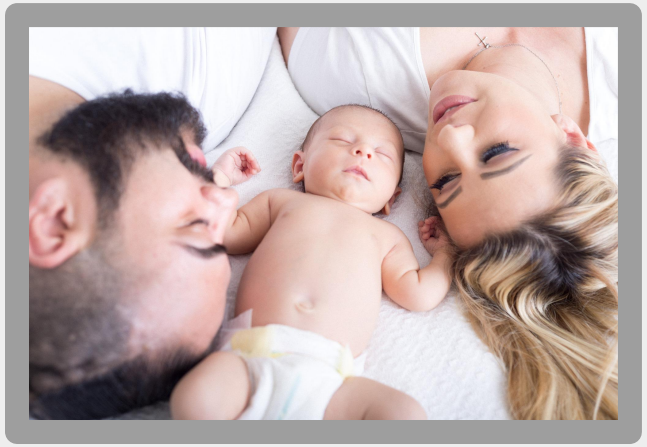
Pregnant by Choice is a Wyoming Department of Health program that offers birth control and reproductive support services to women losing full Medicaid benefits under the Pregnant Women Program.

Family Planning can help you and your family have a better life!

- Mothers and babies have a better chance of being healthy.
- Parents can better provide for their family, both financially and emotionally.
- Children receive more time and attention.

Pregnant by Choice Services

- **Education about reproductive health and methods of birth control**.
- Initial physical exam and health history, including a **pap smear** and **testing for sexually transmitted diseases**.
- **Contraceptive management** including prescriptions; devices and supplies.
- **Annual follow up exam** for reproductive health/family planning purposes, including a pap smear and testing for sexually transmitted diseases when indicated. Follow up office visits related to family planning.
- **Removal of contraceptive devices**.
- Necessary family planning/**reproductive health-related laboratory procedures** and diagnostic tests.
- **Sterilization services** and related laboratory services (with properly completed sterilization consent form) and **medications required as part of a procedure done for birth control purposes**.



Who can provide services?

- Primary Care Physicians
- Certified Nurse Midwives
- Family Planning Clinics
- Nurse Practitioners
