## Please Note.....

- If clients are found ineligible, the Public Health Nurse will provide the client with a Notice of Denial for Service Coverage, and a Service Care Plan, designed to help clients and families find necessary services for the client
- If there are concerns about information being provided to the Public Health Nurse performing the LT101, please have family members present during the assessment to convey all necessary information to the nurse

# *WHAT IS AN LT-101?*

*"SOMEONE SAYS I NEED AN LT-101, I AM NOT SURE WHAT THAT IS, BUT IT SOUNDS PRETTY SCARY....."*

Wyoming Department of Health

Division of Healthcare Financing

## What is an LT101?

- ***The LT101 is an assessment that determines medical necessity for Medicaid Long Term Care Services***
- ***The LT101 is a functional assessment, not meant to measure degree of disease or illness, but how someone functions independently***
- ***The LT-101 assesses nursing home level of care, meaning, the person requires care which would normally be provided in a facility, but may be provided in a home and community based setting***

- **The services the LT101 is used for are the Long Term Care Home and Community Based (LTC HCBS) Waiver Program, the Assisted Living Facility (ALF HCBS) Waiver Program, and Nursing home care**

## When is an LT101 Necessary?

- LT101's are performed when someone applies for one of the Medicaid services listed in this brochure
- LT101's may be done at other times, based on which program someone is participating in

## How are LT-101's Requested?

- LT101's will be requested at the appropriate time, by the Clinical Manager for Long Term Care when someone applies for the LTC or ALF HCBS Waiver Programs
- The Clinical Manager for Long Term Care will receive all LT101 requests, and order them from the appropriate Public Health Office

## *The LT101 Process*

- Performed by trained Public Health Nurses
- Public Health Nurses will contact the client after they receive notice from the Clinical Manager for Long Term Care
- It is imperative that clients make themselves available to Public Health Nurses to complete the LT101 assessment, to effectively utilize their services, and expedite the application process
- Public Health Nurses will attempt to reach clients by phone. If they cannot make contact, they will send a letter to the client, it is then the responsibility of the client to contact Public Health
