The following is a list of state and national organizations that highly support the implemention and integration of SBIRT services into routine healthcare.

Wyoming Department of Health
Mental Health, Smoking and Substance Abuse Services Division
Maternal and Family Health Division

SAMHSA
Substance Abuse and Mental Health Services Association for the U.S. Federal Government. SAMHSA's support of SBIRT through federal grants has expanded the continuum of care in many states to solidify SBIRT programs as well as provide incredibly positive statistical data.

American Medical Association (AMA)
Recognizes the importance of screening and intervening for the person who is not necessarily an identified substance abuser

Emergency Nurses Association (ENA)
The Emergency Nurses Association (ENA) highly endorses the use of SBIRT in trauma service settings

Centers for Medicare and Medicaid Services
The office of Medicaid services has established codes to reimburse providers for the use of SBIRT services. The Wyoming Department of Health activated SBIRT Medicaid codes in January, 2009.

Join Together
An organization which leads initiatives to help communities respond to the harms caused by excessive alcohol and drug use.

American College of Surgeons (ACS)
The American College of Surgeons' Committee on Trauma (ACS-COT) requires that Level I and Level II trauma centers accredited by ACS screen patients for alcohol problems.

Ensuring Solutions
An organization which strives to reduce the burden of untreated alcohol problems on communities, businesses, families and individuals by providing information and tools to increase access to effective and affordable screening and treatment.

Office of National Drug Control Policy
The National Drug Control Strategy document from the White House Office of National Drug Policy (ONDCP) devotes several pages to SBIRT.

JCAHO
The Joint Commission on the Accredidation of Healthcare Organizations is considering that all hospitals should be required to report their outcomes on SBIRT as part of the accreditation process.

Centers for Disease Control and Prevention (CDC)
Supports the integration of the evidence-based practice of the SBIRT model to screen for risky alcohol use and provide a brief intervention to those screening positive.

Journal for Preventative Medicine

National Institute on Drug Abuse (NIDA)

National Institute on Alcohol Abuse and Alcoholism (NIAAA)
