When Do Children and Teens Need Vaccinations?

Age	Hep B Hepatitis B	DTaP Diphtheria, Tetanus, Pertussis	Hib Haemophilus influenzae type b	Polio	PCV Pneumococcal Conjugate	MMR Measles, mumps, rubella	Rotavirus	Varicella Chickenpox	HPV	Influenza
Birth	✓ [1]									
1 month										
2 months	✓ [2]	✓	✓	✓	✓		✓			
4 months		✓	✓	✓	✓		✓			
6 months		✓	✓ [4]		✓		✓			
12-18 months	✓ [3]	✓ (15-18 Mos)	✓ (15-18 Mos)	✓	✓ (15-18 Mos)	✓ (15-18 Mos)		✓		✓ (6-23 mos) (given for each influenza season; first time vaccinees should receive 2 doses spaced 1 mo apart)
19-47 months	Catch-up 5	Catch-up 5	Catch-up 5 (to 5 years)	Catch-up 5	Catch-up 5	Catch-up 5		Catch-up 5		
4-6 years		✓		✓		✓			Girls & Boys (9-21) 3 doses	
11-12 years		✓ (Td only)						(unvaccinated children at this age need 2 doses)		
13-18 years		Catch-up 5		Catch-up 5		Catch-up 5				

[1] All infants should be vaccinated prior to hospital discharge.
[2] Infants who receive hepatitis B vaccine at birth may receive up to 4 doses.
[3] If the infant's mother is HBsAg-positive, a minimum of 3 doses of hepatitis B vaccine should be given by 6 months of age.
[4] A dose of Hib vaccine at 6 months of age is not needed if either PedvaxHib or Comvax was used for doses #1 and #2.
[5] Vaccinations that have been delayed or missed entirely should be given as soon as possible, including throughout the "catch-up" period.

Children 2 years of age and older may need additional vaccines, such as hepatitis A, pneumococcal polysaccharide, meningococcal, or influenza. Talk to your health care provider.

HEALTH CHECK

Prevent illness in your child

through the Medicaid Health Check program.

- Eye Exam
- Head-to-toe Exam
- Hearing Exam
- Dental Exam
- Well Baby Screening

What is Health Check?

Health Check is a program for children ages birth through twenty (20) years that provides the following benefits:

- ✓ Head to Toe Physical Exam (unclothed)
- ✓ Immunizations (shots)
- ✓ Lab Tests (Blood Tests)
- ✓ Lead Screening
- ✓ Height, Weight & Emotional Development Check
- ✓ Nutrition Check (Eating Habits)
- ✓ Eye Exam
- ✓ Dental Exam
- ✓ Hearing Exam
- ✓ Health Information
- ✓ Other Health Care You Need (prescribed by your physician and approved by Medicaid)
- ✓ Physician can apply topical fluoride varnish up to 3 times a year for clients 6 months to 2 years old
- ✓ Teen-Age Health Education
- ✓ Teen Pregnancy Services

All Health Check services are free. Medicaid will pay for all Health Check screening exams and for all authorized follow-up care and treatment as long as your child is receiving Medicaid.

Why are regular checkups important?

Health Check exams are important to your child's health. Many health problems begin before your child looks or feels sick. Regular Health Check exams can find problems and treat them before they get worse.

Health Check exams may meet the physical exam requirements for Head Start, WIC (Women Infant & Children Supplemental Food Program), public schools, and child care providers.

What should be done during the checkup?

	Newborn - 12 mo	15 mo - 4 yrs	5-10 yrs	11-21 yrs
History Initial/Interval	✓	✓	✓	✓
Measurements				
Height & Weight	✓	✓	✓	✓

Recommend reevaluation every six months	✓	✓ (12-24 mo.)	✓ (2-6 yrs.)	
Restorative treatment or referral to specialist as indicated by patient's needs	✓	✓ (12-24 mo.)	✓ (2-6 yrs.)	
Review fluoride status		✓ (12-24 mo.)	✓ (2-6 yrs.)	
Radiographic assessment as indicated by patient's needs		✓ (12-24 mo.)	✓ (2-6 yrs.)	
Provide pit and fissure sealants for primary & permanent teeth as indicated by individual patient's needs		✓ (12-24 mo.)	✓ (2-6 yrs.)	
Provide assessment of developing malocclusions (deformities)		✓ (12-24 mo.)	✓ (2-6 yrs.)	
Provide diagnosis and treatment for any oral diseases, habits or injuries		✓ (12-24 mo.)	✓ (2-6 yrs.)	

KEY: ✓ = to be performed ✗ = to be performed for patients at risk
s = subjective, by history **o** = objective, by a standard testing method
s/o = objective at 12, 15, and 18 years old, subjective, by history for all other years

When do children and teens need vaccinations?

Use the vaccination schedule on the reverse side as a reminder for your child's next doctor visit.

Where should I take my child for a checkup?

Your health care provider, a clinic, health center, local health department or public health agency can provide Health Check screenings.

Dental examinations may be obtained from a dentist who accepts Medicaid clients.

Health Check Services are Free!
