Francis E.Warren AFB and Vet's Adm.figures for 1949 and 1950 are as follows:

1949 - Syphilis 15, gonorrhea 117

1950 - Syphilis 13, gonorrhea 79

Totals for Francis E.Warren and Vet's Adm.are included in Laramie County

49-50

COMMUNICABLE DISEASE CONTROL

D. W. McEnery, M.D.

DIPHTHERIA

Reported cases of diphtheria show a decrease from 29 in 1947-1948 to 18 in 1949-1950. One death was reported in 1949-1950 making the fatality rate for this period 5.6 per cent. No cases were reported from Warren Air Force Base.

SMALLPOX

Two cases of smallpox were reported in 1947-1948. No cases were reported in 1949-1950.

TYPHOID FEVER

A total of 13 cases of typhoid and para-typhoid fever reported was during 1949-1950 compared with 11 cases in 1947-1948. No deaths were reported. No cases were reported from Warren AFB.

POLIOMYELITIS

During 1949-1950, 167 cases were reported compared with 100 cases in 1947-1948.

Table No. 13 shows cases, deaths and case fatality rates by counties for the years 1947-1950.

Of the 167 cases of poliomyelitis for 1949-1950, 89 were males and 78 females. As to color, 163 were white, and 4 Mexican.

Table No. 11 shows the age distribution of the cases reported during the past two biennial periods by years.

Table No. 12 shows the month of onset for the 1949 and 1950 cases compared with total cases for the five year period, 1944-1948.

DENTAL HEALTH

T. J. Drew, D.D.S., M.P.H.

On Sept. 1, 1949, Dr. T. J. Drew was appointed Director of the Dental Division of the Wyoming State Department of Public Health by the State Board of Health. On September 15 he proceeded to the University of Michigan to enroll in the School of Public Health. Considerable time was spent in the Dental College. June 23, 1950, Dr. Drew was graduated from the University of Michigan's School of Public Health with a M.P.H. degree. He returned to Wyoming to assume his present position as Director of the Dental Division. In 1946, a three pronged program was inaugurated with the support and approval of the Wyoming State Dental Association. The points emphasized were:

1. Education and training
2. Investigation and research
3. Demonstration

to which has been added a fourth:

4. Mutual cooperation and understanding

EDUCATION AND TRAINING

The News Letter edited by the Wyoming State Dental Association and the Director of the Dental Division has been continued. The purpose of the news letter is public relations and to develop a spirit of cooperation between the department and the Wyoming dentists. It is also a source of information on what is going on in the State and other states in regard to Dental Public Health problems and accomplishments. Reference is made to films and educational material available through the Health Education Division of the Department.

Efforts have been made to acquaint the public, through lectures at Teachers' Institutes, P-TA groups and civic
