Utilizing information and technical assistance provided via the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) Quality Demonstration grant program, the Division of Healthcare Financing intends to submit a State Plan Amendment to the Centers for Medicare & Medicaid Services (CMS) detailing the methodology necessary to utilize a Care Management Entity (CME) provider model to improve quality and reduce costs for high-utilizing Medicaid-enrolled children with serious behavioral health challenges. The proposed payment methodology utilizes a case rate for specific Medicaid-covered behavioral health care services.
