Dear Interested Party,

The Wyoming Office of Emergency Medical Services (OEMS) has promulgated new administrative rules that include Emergency Licensing. Pursuant to Wyoming Statute § 33-36-110(h) the OEMS may grant an Emergency License to an individual as an EMR, EMT, AEMT, IEMT or Paramedic based on written or electronic confirmation that the individual is currently licensed or was previously licensed at a comparable level in another state. See EMS Rules Chapter 16 Section 14(b). To request an Emergency License, the responsible individual will electronically submit a Wyoming Emergency License Application or a National Wildfire Coordinating Group Limited Request for Recognition Form. These forms can be accessed at <https://health.wyo.gov/publichealth/ems/ems-forms/>.

Once granted an Emergency License is incident specific and expires when the emergency no longer exists, the licensee's services are no longer required, or ninety (90) days from the date of issuance. If an emergency exists for greater than ninety (90) days, a new request for licensure must be completed.

The OEMS may deny approval of an application for an Emergency License if the Division determines: that an emergency does not exist or that issuing the license is otherwise not warranted; or an applicant has submitted an incomplete or fraudulent application. The OEMS may grant an Emergency License equivalent to the level requested. The OEMS may also restrict

or limit an Emergency License. An individual issued an Emergency License shall comply with the relevant Wyoming scope of practice for the level of licensure granted.

Emergency Licensing only applied to individuals. Ambulance Services must still go through the standard Ambulance Business Licensing process.

If you have additional questions, please contact Scott Logan at 307-777-3622 or [scott.logan@wyo.gov](mailto:scott.logan@wyo.gov).

Sincerely,

Andy Gienapp, MS, NRP
