

NIOBRARA COUNTY TOBACCO FACT SHEET

WYOMING STATE EPIDEMIOLOGICAL OUTCOMES WORKGROUP

COUNTY AND STATE HIGHLIGHTS

- For 2008 to 2012 combined-year average, Niobrara County 10th and 12th graders ranked lowest in the state for the percentage of students who believe that most students in their school have used cigarettes on one or more occasions in the past 30 days (51% vs. 83% statewide).
- Niobrara and Hot Springs Counties percentages were combined in BRFSS reporting. Therefore, adult male smokeless tobacco use prevalence data from these two counties are excluded from the presented indicators.
- Because of its small population, Synar tobacco compliance rate data was unavailable for Niobrara County.

CURRENT SMOKING (ADULTS)

Definition: The percentage of Wyoming adults reporting having smoked at least 100 cigarettes in their lifetime and are currently smoking everyday or some days.

Data Source: Behavioral Risk Factor Surveillance System, 2007-2011

CURRENT SMOKING (YOUTH)

Definition: The percentage of students who reported smoking a cigarette in the past 30 days on one or more occasions.

Data Source: Prevention Needs Assessment, 2008-2012

†For more information about Wyoming data at the county level, please refer to WYSAC Technical Report CHES-1427.

‡For more information about Wyoming data at the state level, please refer to WYSAC Technical Report CHES-1426.
