If store does **not** have adequate stock:

1. Verify with store staff that additional stock is not present in the store elsewhere.
2. Verify the store has applied for a Product Waiver. If so, they may not be required to stock certain WIC authorized foods.
3. A new store will not be authorized until the minimum stocking requirements are met.
4. Advise store staff that they are in violation of their current Agreement if minimum stocking requirements are not met. They will be sanctioned six (6) points if stock is not met at your next visit within 30 days, and their Vendor Agreement can be terminated.
