

Doses Administered

Quick Reference Guide

Definition

- Doses administered refers to the number of publicly supplied vaccines administered to eligible patients.
- All providers that receive and administer VFC/WyVIP vaccine must report doses administered monthly.
- Doses administered must be reported using the Wyoming Immunization Registry (WyIR).

Provider Types

- Active WyIR Users
 - Providers that directly enter patient immunizations into the WyIR.
- Providers with an Interface
 - Providers with an electronic interface between their Electronic Medical Record (EMR) to the Total Health Record (THR) or directly to the WyIR.
- Other Providers
 - Providers that do NOT actively enter patient immunizations, nor do they have an interface.

ACTIVE WYIR USERS

- Providers that actively enter patient immunizations into the WyIR should ensure that their staff are doing so correctly. See Vaccinations-WyIR Quick Reference Guide at www.immunizewyoming.com.
- Review doses administered for accuracy. No additional action is needed to report doses administered as it is automatically reported in the Order Details section of the vaccine order.

Order Details							
Vaccine	Description	Dose Used Last Month	Physical Inventory	Order Quantity	Urgent	Priority Reason	Comments
DTaP	Infanrix	0	20		<input type="checkbox"/>	--select--	
DTaP/Hep B/IPV	Pediarix	9	61		<input type="checkbox"/>	--select--	
DTaP/IPV	Kinrix	5	22		<input type="checkbox"/>	--select--	
HPV, quadrivalent	Gardasil	0	32		<input type="checkbox"/>	--select--	
HPV, bivalent	Cervarix	0	0		<input type="checkbox"/>	--select--	
Hep A 2 dose - Ped/Adol	Vaqta	4	36		<input type="checkbox"/>	--select--	

PROVIDERS WITH AN INTERFACE

- These providers must report doses administered by manually entering the data in the doses administered fields in their Create Order Screen.
- This information is required for every vaccine type. Vaccine orders without doses administered data will be rejected.

Order Details
