

School Nurse Access to WylR

Frequently Asked Questions

Do we need to obtain parental agreement every year or is it a one-time signature?

The agreement does not expire and is valid until a parent/guardian tells you otherwise.

Is the Agreement Form available in Spanish?

Yes. It's posted on our website along with the original Agreement Form.

Can we incorporate the parental agreement into our online registration?

Yes. If your electronic student enrollment system is customizable and can document this information, then you are welcome to use it. Please keep in mind the following considerations:

The agreement statement should include "on behalf of the Wyoming Department of Health." The Agreement Form is on WDH letterhead because School Nurses are obtaining this agreement on our behalf. Therefore, the electronic agreement should be the same. School Nurses are not accessing WylR on our behalf, but are gaining the agreement on our behalf.

Also, be certain that this agreement can be available for review in the event of an audit. School Nurses would need to show that the agreement was received if they were asked to do so. In addition, be certain that a parent who does not agree is easily identified so their student's immunization record is not accessed within WylR without an agreement.
