

2016 Immunization Assessment for Child Caring Facilities

Instruction Page

Wyoming Statute § 21-4-309 grants authority to the Wyoming Department of Health to conduct an annual audit of the immunization status of any child enrolled in school in accordance with the rules and regulations prescribed for the control and management of communicable diseases. All children enrolled in child caring facilities and all students attending school must be up-to-date with their immunizations 30 days from the date of enrollment/school entry. All children/students are expected to be in compliance, provisionally enrolled, or have a medical or religious exemption. By keeping our immunizations rates high, we are reducing the likelihood of vaccine preventable disease outbreaks.

This year we are collecting immunization data on all enrolled children/students. If you are reporting for more than one school, please fill out separate Assessments.

There is a document located on our website that will help guide you through the assessment. The Guide to Completing the Immunization Assessment can be found at <https://health.wyo.gov/publichealth/immunization/schools-and-daycare/>

If you have questions about the assessment please contact Valerie Knepp, by phone at (307) 777-8981 or email at val.knepp@wyo.gov.

If you have questions about the immunization rules please contact Jude Alden, Immunization Unit Manager at 307-777-6001 or jude.alden@wyo.gov.

You will have from Saturday, October 1st until Tuesday, November 1st to complete the Assessment.

We appreciate your support and cooperation. Thank you for your time and effort in the collection of this valuable information.

Sincerely,
Valerie Knepp, RN
Clinical & AFIX Specialist

Length of time to complete the Assessment will vary depending on the data sources available and the number of children in the center.

Status Definitions

Please use the following definitions when completing the individual vaccine questions for all ages:

A child has an immunization status of "COMPLIANT" if he or she:

- a. is fully immunized with all vaccine doses required for their age; or
- b. Has evidence of immunity by a certified lab report that confirms serologic immunity
- c. For varicella only- has a written statement from a parent, legal guardian or physician attesting to a child's positive history of varicella disease

A child has an immunization status of "NOT-COMPLIANT" if he or she:

- a. Does not have a vaccine record; or
- b. Has not received the vaccine; or
- c. Has no exemption on file

A child has an exemption status of "EXEMPT" if he or she:

- a. Has a religious or medical exemption for any or all required vaccines, approved by the State or County Health Officer

A child has an immunization status of "PROVISIONAL" if he or she:

- a. Attends school while working on getting the missing immunizations, and is making satisfactory progress toward full immunization. "Satisfactory progress" means the child must start, or continue getting, missed immunizations by following ACIP recommended schedules as described in Chapter 1, Section 10 of the Rules and Regulations for Required Immunizations.

Remember, the total number of students enrolled must equal the totals of Compliant, Not-Compliant, Religious Exemption, Medical Exemption and Provisional. Do not count a student in more than one category.
