VFC/WYVIP PROGRAM

LogTag® Data Logger Quick Tips

Each day, providers must:

- 1. Review and record the current temperature for the unit twice per day.
- 2. Review and record the minimum and maximum temperatures for the unit once per day, in the morning.
- 3. Review the minimum and maximum temperatures for the previous day as the data logger resets every night at midnight. These temperatures do not need to be recorded; however, if there is an out of range temperature discovered, it must me reported immediately.
 - a) Press the "Review/Mark" button once to show the maximum temperature.
 - b) Press the "Review/Mark" button again to show the minimum temperature.
 - c) Continue pressing the "Review/Mark" button to read min/max temperatures for previous days stored on the data logger.
 - d) Press the "Start Clear Stop" button to return to the current temperature.

REMINDER: Any out of range temperatures (whether it is a current or a min/max temperature) **must** be reported to the Immunization Program **immediately** upon discovery.

Downloading LogTag® Data:

Data should be downloaded from the device weekly, preferably Monday morning.

- 1. Before unplugging the device from the white cord, press and hold the "Start Clear Stop" button until the word "STOPPING" is no longer flashing and the word stays steady.
- 2. As soon as "STOPPING" is no longer flashing, release the "Start Clear Stop" button.
- 3. The screen should now only show the word "Stopped".
- 4. Unplug the device from the Glycol probe.
- 5. Follow the steps in the "Downloading Data" section of the LogTag® How-To-Guide starting on page 47.

After Completion of the Data Download:

- 1. Before starting the device, plug it into the Glycol probe.
- 2. Press & Hold the "Start Clear Stop" button until the word "STARTING" is no longer flashing and the word stays steady; it will appear as: "READY STARTING."
- 3. As soon as "STARTING" is no longer flashing, release the "Start Clear Stop" button.
- 4. The screen should now show it is reading the current temperature and it is recording data.

For detailed information on LogTag® use and setup see resource: LogTag® Data Logger How-To-Guide. Contact Kristy Westfall, Compliance Specialist at kristy.westfall1@wyo.gov or 307-777-6519 for additional assistance.
