Wyoming Department of Health

Commit to your health.

The Communicable Disease Treatment Program provides access to services for individuals in Wyoming who do not have sufficient health care coverage or financial resources. The program can help fill gaps not met by other payers.

Health Care and Support Services are available to those in need.

Communicable Disease Treatment HIV Program

Wyoming Department of Health

Commit to your health.

If you or someone you know has HIV or AIDS and needs help, the Wyoming Department of Health's Communicable Disease Treatment Program can help pay for medications, medical care, health insurance, and other support services.

WHAT IS COVERED?

- HIV Medical Care
- Laboratory Services
- Dental Care
- Vision Care
- Prescription Medications
- Nutritional Services
- Case Management Services *(available in all counties)*
- Mortgage and rent assistance
- Utility Assistance
- Transportation Assistance
- Insurance Deductibles
- Insurance Co-payments
- Medicare Part D Premiums
- Insurance Assistance

WHO CAN APPLY?

To receive assistance, you need to:

- Live in Wyoming
- Have a photo ID
- Be HIV positive

HOW TO APPLY?

- Phone: 307-777-5856
- Internet: www.wyohiv.info
- Contact your local Public Health Nursing office or case management agency

DOES THE COMMUNICABLE DISEASE TREATMENT PROGRAM PAY FOR EVERYTHING?

The Communicable Disease Treatment Program primarily covers medications that are on the AIDS Drug Assistance (ADAP) Formulary. Available at www.wyohiv.info

The program may not cover all of your medical needs. Emergency room visits and overnight stays in the hospital are not covered.

Some services may be limited based on eligibility.

ALL HIV-RELATED INFORMATION IS KEPT STRICTLY CONFIDENTIAL!

DO I NEED THE PROGRAM?

The Communicable Disease Treatment Program can work with other coverage so you get the services you need and save money. Here are a few examples:

Medicaid

Already have Medicaid? The Treatment Program can help with services not covered by Medicaid, such as case management, transportation, and housing assistance.

Medicare Part B and D

Already covered by Medicare? The Treatment Program can help with Medicare Part D premiums, co-payments, deductibles, and medications while in the "donut hole." The Program can also help with Medicare Part B deductibles and co-payments on services related to HIV.

Private Health Insurance

The Treatment Program can help with co-payments, co-insurance, and deductibles on your private health insurance. If you don't have or if you lose your insurance coverage, the Program can also help with insurance premiums.
