

Data Collection & Reporting on CCHD Screening

It is strongly recommended that a member of the labor and delivery staff is filling out the maternal worksheet in order to ensure accurate data is collected to complete this section.

Was infant screened?

If **NO**, use the drop down box to select a reason.

- Infant was transferred
- Parent Waived
- Infant was not medically eligible
- Unknown
- Other

Critical Congenital Heart Disease Screening

Was infant screened?

No Screen

No Screen Reason:

If **YES**, check the box. New fields will automatically appear

First Screen

- **Screen Date:** Fill in date when screen was performed.
- **Time:** *military time* of when the screen was performed.
- **Hours of Life** will automatically calculate after the information is completed and saved.
- Check **Data Not Available** if the screen was performed but the data was not available.
- **Result:** Select *Passed* or *Failed* based on what labor and delivery has marked on the maternal worksheet. They will have access to a chart to help them make a determination.
- Fill in **Upper Extremity** and **Lower Extremity** values. These values must be between 70 and 100. If outside the range, please ensure that the number is correct.
- **Comments:** include anything about this screen that you may want to share.

Critical Congenital Heart Disease Screening

Was infant screened?

First Screen

Screen Date: 10/02/2017

Time: 1520

Hours of Life: 28:09

Data not available?

Result: Passed

Upper extremity: 96.00 %

Lower extremity: 97.00 %

Second and Third Screen

- If failed is selected for first screen, a new section titled **Second Screen** will automatically pop up. Please fill in the sections as you did with the first screen. Ensure that labor and delivery is indicating on the maternal worksheet whether the screen is passed or failed.
- If failed is selected for second screen, a third section titled **Third Screen** will pop up and you will need to fill in the results from that screen.

Failed Screening

- If all three (3) sections have failed, a new section titled **Failed Screening** will appear and you will have a dropdown box of some possible outcomes. Please check all that apply.
 - ECHO completed in this facility
 - Transferred to complete an ECHO in another facility
 - Infant is discharged with a referral
 - Consult with pediatric cardiologist and/or neonatologist
 - Information not available
 - Other

***PLEASE NOTE:** It is recommended that all facilities incorporate CCHD screening results into their Electronic Medical Record (EMR)
