Dear Regional Directors,

The Early Intervention and Education Unit (EIEP) on June 16, 2014 sent a letter to regional directors with a list of approved assessments for the determination of eligibility for Part B/619 services. With the passage of time many of these assessments have been updated. As a result, the following list of assessments has been updated to comply with the current versions of these assessments. The assessments must be administered and interpreted by a qualified professional as prescribed in the assessment protocol. The resulting scores including the z-score must be included in the Evaluation Report and Eligibility Determination forms and Multidisciplinary Team Report (MDT). In addition, if there is a need for an assessment to determine eligibility that is not on this list, please submit a written request to the Part B Coordinator.
