

Aging Needs Evaluation Summary (AGNES) Form

Client Information Document

What is it?

The AGNES is a document that is given to eligible participants in Older Americans Act funded programs and the Wyoming Home Services Program. This includes Title III-B Supportive Services; Title III-C1 Congregate Meal; Title III-C2 Home Delivered Meals; Wyoming Home Services Program; and Title III-E Caregiver Program. It is used to evaluate what service(s) an eligible participant (an older adult age 60 and older or a Caregiver 18 and older) may need and what may be most useful to that individual.

Why does it matter?

Information from the AGNES is collected and entered into the state data system. Data is used to gather demographic, nutritional, daily self-care activities data and determine services being utilized by eligible participants. This data assists the Aging Division, Community Living Section in receiving funding from both the federal and state government.

Who sees my information?

The Community Living Section must follow HIPAA guidelines. Information received will be treated as confidential and will only be made available in accordance with the requirements of the law. The information received is for registration purposes. The information will be used the Community Living Section to create statistical reports and may be used by service providers to help identify other services from which an eligible participant may benefit. This information will not be released to anyone other than the above mentioned parties in a way that will identify an eligible participant as an individual unless the eligible participant signs a separate consent for that purpose.
