If an individual receives a title II benefit, any amounts attributable to the most recent increase in the monthly insurance benefit as a result of a title II COLA is not counted as income during a "transition period" beginning with January, when the title II benefit for December is received, and ending with the last day of the month following the month of publication of the revised annual Federal poverty level. For individuals with title II income, the revised poverty levels are not effective until the first day of the month following the end of the transition period. For individuals not receiving title II income, the revised poverty levels are effective no later than the date of publication. 1905(s) of the Act Qualified disabled and working (1)g. individuals. In determining countable income for qualified disabled and working individuals covered under 1902(a)(10(E)(ii) of the Act, the methods of the SSI program are used. 1905(p) of the Act Specified low-income Medicare (2)beneficiaries. In determining countable income for specified low-income Medicare beneficiaries covered under 1902(a)(10)(E)(iii) of the Act, the same method as in f. is used.

Act

Condition or Requirement

1902(k) of the 2. Medicaid Qualifying Trusts

In the case of a Medicaid qualifying trust

described in section 1902(k)(2) of the Act, the amount from the trust that is deemed available to the individual who established the trust (or whose spouse established the trust) is the maximum amount that the trustee(s) is permitted under the trust to distribute to the individual. This amount is deemed available to the individual, whether or not the distribution is actually made. This provision does not apply to any trust or initial trust decree established before April 7, 1986, solely for the benefit of a mentally retarded individual who resides in an intermediate care facility for the mentally retarded.

<u>/X/</u> The agency does not count the funds in a trust as described above in any instance where the State determines that it would work an undue hardship. <u>Supplement 10 of ATTACHMENT 2.6-A</u> specifies what constitutes an undue hardship.

1902(a)(10) of the Act

3. Medically needy income levels (MNILs) are based on family size.

<u>Supplement 1 to ATTACHMENT 2.6-A</u> specifies the MNILs for all covered medically needy groups. If the agency chooses more restrictive levels under section 1902(f) of the Act, <u>Supplement 1</u> so indicates.
