

Public Notice - CORRECTED

Wyoming Department of Health
Reimbursement of Durable Medical Equipment Products and Supplies

Public notice is hereby given that the Wyoming Department of Health intends to submit a State Plan Amendment (SPA) to the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services. This amendment will change the reimbursement methodology for select Durable Medical Equipment products and supplies (DME), effective June 1st, 2018.

An estimated decrease in aggregate expenditures for DME is expected of approximately \$600,000.00 annually.

Pursuant to the 21st Century CURES Act, Durable Medical Equipment identified by CMS as included under the 21st Century CURES Act will be reviewed annually, and reimbursement rates adjusted to be no more than 100% of Medicare's Wyoming specific non-rural rate, with the exception of oxygen and oxygen related supplies and equipment. Reimbursement for oxygen and oxygen related supplies and equipment will be reviewed separately and reimbursement maintained at a rate to ensure access to services for Wyoming Medicaid clients.

Copies of the Wyoming Medicaid State Plan will be available at the Department of Health, Division of Healthcare Financing. To obtain a copy of the State Plan Amendment or to send written comments or request copies of any written comments, contact:
