Wyoming 2-1-1

What is 2-1-1?

Every day thousands of people across North America turn to 2-1-1 for information and support—whether financial, domestic, health or disaster-related. 2-1-1 is a free, confidential referral and information helpline and website that connects people from all communities and of all ages to the essential health and human services they need.

In 2018, 2-1-1s across the US answered over 12.8 million calls and almost 1 million texts, web chats and emails. Referrals were most often made for housing or utilities assistance; physical or mental health services; assistance finding and obtaining employment; and services to address and prevent homelessness. Today, 2-1-1 is available in all 50 states and to 94% of the US population.

Like 9-1-1 for emergency services, 2-1-1 has been set aside nationally by the Federal Communications Commission for the public to more easily access community information. 2-1-1 is also a central resource for community information during and in recovery from disasters.
