

Kid Care CHIP Methodology that Identifies Prevalent Non-English
Languages Spoken in Wyoming

Review the following websites yearly to determine whether there are any languages, other than English and Spanish, which are spoken by (5) percent or more of the Wyoming population.

<http://www.city-data.com/states/Wyoming-Languages.html>

<https://statisticalatlas.com/state/Wyoming/Languages>

If there is another language that is spoken by five (5) percent or more of the Wyoming population, notify the Kid Care CHIP contractor that they must now translate all client documentation into that language as well as English and Spanish.
