Note 1: Low weight births are those weighing less than 2500 grams. Please refer to the definitions and technical calculations on page 48 of this document.

Note 2: National data reports teens as 15-19; however, births to teens younger than 15 did occur but are small numbers and not reported.

Note 3: Percentages are based on the total number of births recorded in the year. Data are rounded and may not add to 100% due to rounding error.

Note 4: In a few rare cases, mother's age was not recorded for the event; therefore, mother's age totals will not match county totals.
