

Who performs an LT101 assessment?

Registered nurses licensed to practice in the State of Wyoming who are employed or contracted by a County Public Health Nursing Agency and who are trained to conduct the LT101 Assessment.

When is an LT101 needed?

An LT101 is needed for nursing home residents, proposed residents who seek nursing home Medicaid coverage, proposed clients of Community Choices Waiver (CCW Waivers); and the Program of All-Inclusive Care for the Elderly (PACE); Pre-admission Screening and Resident Review (PASRR) Level II screenings.

What is the timeline to for LT requests?

LT101 assessments are under state oversight by the Level of Care (LOC) Assessment Coordinator at the Wyoming Department of Health (WDH), Division of Healthcare Financing (Medicaid). The State has three (3) business days to refer LT requests and for a new referrals, the public health (PH) nurse has 7 calendar days to complete and enter the LT101 assessment (from the State referral date). If the assessment cannot be completed within that timeframe, an extension can be requested in the Electronic Medicaid Waiver System (EMWS) by the PH nurse.

What happens when someone is deemed ineligible? Who informs them of this fact?

A letter is generated by staff from the case management information system to notify the person of the determination and their right to request reconsideration or appeal the Department's determination by requesting a fair hearing.

For those who request a reconsideration, a second LT101 assessment is conducted. Individuals determined not to meet the nursing facility level of care are notified by a system generated letter. Those who disagree with the reconsideration results may request a fair hearing.

How to request a Nursing Facility (NF) user login request?

To request a NF user login please click on link www.wyowaivers.com and follow the step-by-step instructions and if you need assistance please email ccw.emws.helpdesk@wyo.gov.
