

Civil Money Penalty (CMP) Reinvestment

Additional Checklist

Coronavirus Disease 2019 (COVID-19)

In-Person Visitation Aids

Facilities must ensure appropriate Life Safety Code (LSC) requirements found at 42 CFR 483.90 are met, unless waived under the PHE declaration.

Please complete the checklist below if you are using a tent for in-person visitation aids and submit along with your CMP Application.

Click in the Facility Name box and then tab through the document.

Facility Name:		
✓	Item:	Details:
	Tent is constructed of flame-retardant material	List type and specification of material:
	Tent should be located in an area with firm ground such as the parking lot. Location in a parking lot should also accommodate any needed ADA accessibility from the curb. If in a grassy area, or other soft area, temporary ground cover should be provided to allow easy access via wheelchair.	Please identify where the tent will be located, and how these other items will be addressed:
	A portable fire extinguisher should be provided at the tent location.	Capacity and location of extinguisher:
	“No Smoking” signs should be posted at the tent for visitors and residents.	Location:

If you have any questions about these requirements, please contact our office at 307-777-7123 and ask to speak to someone in our Construction & Life Safety Code Branch.
