**Count of Patient Care Report Validity Score Range for Minor, Moderate, Severe and Total**

Average Compliance	2019			
	1/1 to 3/31	4/1 to 6/30	7/1 to 9/30	10/1 to 12/31
≥80 to <90	31			
≥40 to <80	23			
<40	43			
Total Records	97			

This report provides agency administrators a count of low validity scores for the reporting period. Using this report can help look for trends along with issues completing EMS documentation. This can also help identify which providers may be struggling with this and identify where further documentation education can help. Through the use of the Report Writer, agencies may stay on top of either abandoned, duplicate, or incomplete patient care reports using the new Agency Low Validity Report.

The goal of EMS agencies is to score 90 or above on average during the quarter. Scoring of 100 on every individual record is the goal but it is not always feasible as we work to identify exceptions in the validation scoring system. EMS providers should never enter fictitious data to increase their validity score. Agencies are encouraged to call Jay Ostby at (307) 777-6023 with validity issues for further research.

Record Creation Date Range: 1/1/2019 through 3/31/2019

Data Run Report: 4/15/2019
