

Wyoming  
Department  
of Health

# **COMMUNITY PREVENTION GRANT HIGHLIGHTS**

2019/2020

# BACKGROUND

The Wyoming Department of Health funds a community prevention grant program through a combined effort of the Substance Abuse Prevention Program, the Tobacco Prevention and Control Program, and the Injury and Violence Prevention Program. Each County that receives community prevention funding has a Community Prevention Specialist (CPS) who works with local coalitions to strengthen the prevention efforts in their community. Their focus areas include alcohol, tobacco, other drugs, and suicide prevention.

At both state and local levels, Wyoming employs a data-driven decision-making process. The ultimate goal is to create community-level change across Wyoming. Each CPS is tasked with collaborating with their local prevention coalitions and completing a comprehensive needs assessment that addresses all relevant data covering local demographics, socioeconomic conditions, community norms, and other risk/protective factors. The results of this assessment are used to create and implement local strategic plans that focus on policy changes, systems transformation, and mental health information dissemination.

The following are highlights that illustrate some of the successes of the strategic plans from the 2019/2020 Community Prevention Grant (CPG) cycle. Included are state-level highlights as well as highlights for each individual county.

\*Please note, there are no highlights for Platte County because they did not apply for the 2019/2020 CPG.

# COMMUNITY PREVENTION GRANT

## 2019/2020 STATE LEVEL GRANT HIGHLIGHTS

### BUDGET SUMMARY

Tobacco	\$1,233,985.24	15.42%
Suicide	\$2,060,869.42	25.76%
Substance Abuse	\$3,532,706.42	44.16%
Unspent	\$1,172,438.92	14.66%
<b>Total Budget</b>	<b>\$8,000,000.00</b>	<b>100%</b>

\* Activities in year one of the grant may have been impacted as the grant was first implemented and the counties were building capacity. Additionally, the COVID-19 Pandemic may have impacted grant activities from March 2020-June 2020.
