PROJECT TITLE	PROJECT DURATION	AWARDED AMOUNT	PROJECT SUMMARY	AWARDEE	RESULTS OF PROJECT	OTHER KEY INFORMATION
iN2L (It's Never 2 Late)	1 Year	\$ 3,204.00	Goal is to enhance the lives of people in facility living with dementia through implementation of iN2L technology. This technology will provide individualized, engaging memory support interventions that will assist in reducing agitation, social isolation and emotional distress while improving quality of care.	St. John's Living Center	The project did not meet the anticipated goals related to a 25% decrease in psychotropic drug use over a 6 month period; 50% decrease over a 12 month period for selected residents; and 10% increase in tablet usage hours/day each month over 12 months. It was determined this was because the initial baseline numbers, especially in relation to scheduled medications, was already at a low point throughout the year and that number remained stable. A positive finding was that the use of prn medications showed a 30% decrease in the two residents included in the study.	na
