Each funded contractor shall develop a written policy and procedure to enforce this policy.
- ***Waiting List Policy and Procedure:*** It is the responsibility of each provider to establish a written policy on waiting list procedures. Providers are required to submit the letter of intent and the competitive grant application. Year two (2) is continuation grant year, in which the provider who is awarded the grant in the competitive year, maintains the program with an annual continuation grant application.

When an organization applies to become a provider of Title III-B Services in their service area, they must select which category of service(s) they are going to provide – Health Services, Socialization Services, Support Services, and Transportation Services.

Location of Services

Participants of Title III-B Services must be entered into the A&D system by the 15th day of the following month for services provided for the prior month.

Fiscal responsibilities - Program Expenditures

When a provider organization submits an application for Title III-B grant funds, it is required that the organization turn in a full, detailed proposed budget for all funds that will be used for the program. This includes the requested federal funds, state funds, local funds, projected program income, in-kind, and any other sources of funds that will be used for the Title III-B services.

- ***State Funds Amount:*** Each provider will be notified of the allotted amount of Title III-B state funds they can request. This will be done when the grant application is sent out to all providers, in the spring of each year.
