6. c. PAYMENT FOR CHIROPRACTORS' SERVICES

Reimbursement for chiropractic services is the lesser of charges or the Medicaid fee schedule amount. A maximum allowable fee is established by procedure code regardless of provider location. All public and private providers are reimbursed according to the same fee schedule. Providers may access the fee schedule on the agency website or upon request by calling the fiscal agent.

Chiropractic fees were determined by an RBRVS analysis of customary charges, prevailing charges, and average commercial rates. Charges were inflated to the SFY 2007 rate year using data from the Medicare Economic Index. The reasonable charge was identified as the lower of the inflated charges or the newly computed rate under each of the three approaches. Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers. The agency's fee schedule rate was set as of July 1, 2015 and is effective for services provided on or after that date. All rates are published and can be found at http://wyequalitycare.acs-inc.com/fee_schedule.html.

New procedures are reimbursed at 90% of the Medicare's current rate until an analysis is completed and an RBRVS rate is established.

Explanation of Limitations

- 4.b The following expanded EPSDT services, which are not currently covered elsewhere in the state plan are available to treat conditions detected in children and young adults under the age of 21. A prior authorization process will determine the medical necessity and most cost effective setting for the service.

Expanded EPSDT Services:

- Medical care, or any other type of remedial care recognized under state law, furnished by licensed practitioners within the scope of their practice as defined by state law, i.e. services provided by a chiropractor, podiatrist, psychiatric nurse practitioners, psychologist, social worker or nutritionist.
- Private duty nursing services;
- Occupational and speech therapy services;
- Dentures;
- Case management services as defined in section 1915(g)(2);
- respiratory care services as defined in section 1902(e)(9)(C);
- Personal care services furnished to an individual who is not an inpatient or resident of a hospital, nursing facility, intermediate care facility for the mentally retarded, or institution for mental disease that are: (A) authorized for the individual by a physician in accordance with a plan of treatment or (at the option of the state) otherwise authorized for the individual in accordance with a service plan approved by the state; (B) provided by an individual who is qualified to provide such services and who is not a member of the individual's family, and (C) furnished in a home or other location; and,
- other diagnostic, screening, preventive, and rehabilitative services including any medical or remedial services (provided in a facility, a home or other setting) recommended by a physician or other licensed practitioner of the healing arts within the scope of their practice under state law for the maximum reduction of physical or mental disability and restoration of an individual to the best possible functional level, which are not currently covered.

Service Limitations:

Any limits on services or treatments are not applicable to EPSDT recipients if the service is determined to be medically necessary as a result of an EPSDT referral and is prior authorized.

12.a. Prescribed Drugs: Description of Service Limitation

Drugs dispensed in quantities of more than a 34-day supply will not be allowed for payment with the exception of claims received for drugs that are identified as maintenance medications by the Division.

The State will cover erectile dysfunction drugs for FDA approved indications other than for sexual or erectile dysfunction.

Drugs when billed with a date of service such that 80% of the product from a previous bill would not have been utilized and/or an accumulation of the drug from previous refills exceeds a 15 day supply, or in cases where the drug billed is a narcotic that 90% of the product from a previous bill would not have been utilized and/or an accumulation of the drug from previous refills exceeds a 7 days supply except in situations where the Division determines that the early refill is medically necessary and authorizes an over-ride for the claim.

To increase the cost-effectiveness of dispensing habits, quantities of medication may be restricted if the Medical Services Division or the Drug Utilization Review (DUR) Board determines (a) an alternate method of dispensing would be medically appropriate and more cost-effective, or (b) the dose is not a medically accepted dose supported by citations in the compendia described in Section 1927 (g)(1)(B)(i) of OBRA '93.

13d. REHABILITATIVE SERVICES – MENTAL HEALTH & SUBSTANCE ABUSE

Outpatient mental health and substance abuse treatment services are provided to all Medicaid recipients based on medical necessity. Covered services are mental health rehabilitative services provided by or under the direction of a physician, psychologist, advanced practitioner of nursing, or other licensed practitioner of the healing arts, pursuant to 42 CFR 440.130 which the State deems appropriate and consistent with the patient's condition.

The following rehabilitative services are allowable for outpatient mental health and substance abuse treatment services:

- Clinical Assessment – Direct contact with the recipient (and collaterals as necessary) for the purposes of completing an evaluation of the recipient's mental health and/or substance abuse disorder(s) to determine treatment needs and establish a treatment plan. This service may include psychological testing if indicated.
- Agency or Office-based individual/family therapy services - Direct contact within the provider's office or agency, with the recipient and/or collaterals for the purpose of developing and implementing the treatment plan for an individual or family. This service is targeted at reducing or eliminating specific symptoms or behaviors which are related to a recipient's mental health or substance abuse disorder as specified in the treatment plan.
- Community-based individual/family therapy services - Direct contact outside of the provider's office or agency, with the recipient and/or collaterals for the purpose of developing and implementing the treatment plan for an individual or family. This service is targeted at reducing or eliminating specific symptoms or behaviors which are related to a recipient's mental health or substance abuse disorder as specified in the treatment plan.
- Group Therapy – Direct contact with two or more unrelated recipients and/or collaterals as necessary for the purpose of implementing each recipient's treatment plan. This service is targeted at reducing or eliminating specific

symptoms or behaviors related to a recipient's mental health and/or substance abuse disorder(s) as identified in the treatment plan.

- Psychosocial Rehabilitation - Direct contact with two or more recipients (and collaterals as necessary) for the purpose of providing a preplanned, structured program of community living skills training which addresses functional impairments and/or behavioral symptoms related to a recipient's mental and/or substance abuse disorder(s) to slow deterioration, maintain or improve community integration, to ensure personal safety and wellbeing, and to reduce the risk of or duration of placement in a more restrictive setting including a psychiatric hospital or similar facility.
- Individual Rehabilitative Services - Direct contact with enrolled recipients (and collaterals as necessary) for the purpose of implementing that portion of the treatment plan targeted to restoring basic skills necessary to function independently in the home and the community in an age-appropriate manner and for the purpose of restoring those skills necessary to enable and maintain independent living in the community in an age appropriate manner, including learning skills in use of necessary community resources. Individual rehabilitative services assist with the restoration of a recipient to his or her optimal functional level. This service is targeted at reducing or eliminating specific symptoms or behaviors related to a recipient's mental health and/or substance abuse disorder(s) as identified in the treatment plan.
- Certified Peer Specialist Services - Direct contact with enrolled recipients (and collaterals as necessary) for the purpose of implementing the portion of the enrolled recipient's treatment plan that promotes the recipient to direct their own recovery and advocacy process or training to parents on how best to manage their child's mental health and/or substance abuse disorder to prevent out-of-home placement; to teach and support the restoration and exercise of skills needed for management of symptoms; and for utilization of natural resources within the community. Services are person centered and provided from the perspective of an individual who has experience with the mental health and/or substance abuse system to assist the recipient and their family with meeting the goals of the recipient's treatment plan. This service is targeted at reducing or eliminating specific symptoms or behaviors related to a recipient's mental health and/or substance abuse disorder(s) as identified in the treatment plan.
- Comprehensive Medication Services- Direct contact with enrolled recipients by licensed and duly authorized medical personnel, acting within the scope of their

Applied Behavior Analysis (ABA) treatments are allowable to children between the ages of 0-20 years of age with a diagnosis of Autism Spectrum Disorder. Applied Behavior Analysis are individualized treatments based in behavioral sciences that focus on increasing positive behaviors and decreasing negative or interfering behaviors to improve a variety of well-defined skills. ABA is a highly structured program that includes incidental teaching, intentional environmental modifications, and reinforcement techniques to produce socially significant improvement in human behavior. ABA strategies include reinforcement, shaping, chaining of behaviors and other behavioral strategies to build specific targeted functional skills that are important for everyday life.

Allowable services include:

- Behavior identification assessment – Direct contact with the recipient (and collaterals as necessary) for the purposes of identification of deficient adaptive or maladaptive behaviors, completing an evaluation of the recipient’s mental health and/or substance abuse disorder(s) to determine treatment needs and establish a treatment plan. This service may include psychological testing if indicated.
- Behavioral identification supporting assessment – Direct contact with the recipient (and collaterals as necessary) for the purposes of identification and evaluation factors that may impede the expression of adaptive behavior. This assessment utilizes structured observation and/or standardized and non-standardized test to determine adaptive behavior. This service may include psychological testing if indicated.
- Adaptive behavior treatment – Direct contact with the recipient (and collaterals as necessary) for the purpose of addressing the patient’s specific target problems and treatment goals as defined by the assessments. Adaptive behavior treatment is based on principles including analysis and alteration of contextual events and motivating factors, stimulus-consequence strategies and replacement behavior, and monitoring of outcome metrics.
- Family adaptive behavior treatment guidance – Direct contact with the family/caregiver to provide specialized training and education to assist with the child’s needs and development. The provider will observe, instruct and train the family/caregivers on the child’s development status, and techniques and strategies to promote the child’s development that is established in the treatment plan.
