## Wyoming Medication Donation Program

### In this Issue:

- \* Drug Assistance Resources
- \* Reminder Notice
- \* Personnel Announcement

### Drug Resources

- \* WMDP is just one of many drug resources out there for patients. Also referred to as drug assistance programs, these resources are targeted towards low-income individuals who are un-insured or under-insured. Here are some examples:
  - \* Prescription Assistance Programs (PAP's) offered from drug manufacturers
  - \* Pharmacy drug savings programs or discount card programs
  - \* Non-profit copay and premium assistance programs
  - \* State health insurance assistance programs (SHIP's)
- \* Resources like WMDP are great options for short-term or interim assistance, but limitations in our program design make long-term assistance challenging (ex: inventory woes, limited formulary/types of items that are covered, etc.)
- \* For more information about other assistance programs, please see the link below:  
<https://www.aafa.org/patient-assistance-medicine-drug-programs#SPAPS>

### Reminder Notice:

- \* Dispensing site **quarterly reports for Q1 2022 are due Monday, April 25th, 2022.** We ask that every dispensing site completes a report form, even if the site has not requested and dispensed any medication from WMDP during the reporting window. This helps to ensure we have documentation to support reporting numbers to the legislature.

### Personnel Announcements:

- \* **Someone's getting married!** Our program manager, Sarah Gilliard, is getting married on May 7th, 2022. Her and Fiancé Steven will be doing a destination elopement to Yellowstone National Park. All of us at WMDP want to congratulate Sarah and Steven on their upcoming nuptials!
