CAPPA Meeting
April 22-23 in Jackson

Quick Fact: Trichomoniasis, HBV, gonorrhea, and chlamydia are the most frequently diagnosed infections among women who have been sexually assaulted. Post-assault examination presents an important opportunity for identifying an STI for any victim. Though less likely, HIV is also a risk factor for any victim of sexual assault. You can still use 1-800-273-8255 and many others are available [here](#).

The CDU Monthly Webinar is held every **3rd Tuesday of every month from 2-3 PM MT** via Zoom

Please see the calendar at the end of this newsletter.

STD Awareness Month

STD Awareness Month provides an opportunity to raise awareness about STDs and how they impact our lives; reduce STD-related stigma, fear, and discrimination; and ensure people have the tools and knowledge to prevent, test for, and treat STDs.

CDC estimates that about 20 percent of the U.S. population – approximately one in five people in the U.S. – had an STI on any given day in 2018, and STIs acquired that year cost the American health care system nearly \$16 billion in health care costs alone. Preliminary 2020 data indicate reported STDs in the U.S. dropped as clinics and healthcare offices closed, then resurged when they reopened.

CDU Monthly Webinar

CDU HIV, STD, and Hepatitis Risk Assessment and Basic PRISM Data Entry
Tuesday, April 19th, 2pm

Register in advance for this meeting:

<https://us02web.zoom.us/meeting/register/tZUvdO2rqzsuH9Q1ir44A8JxQa5LLV1I8w3k>

After registering, you will receive a confirmation email containing information about joining the meeting.

Sexual Assault Awareness Month

April is Sexual Assault Awareness Month, a time to focus the attention to the prevalence of sexual assault and educate communities, individuals and relatives about how to prevent it. Sexual harassment, assault, and abuse can happen anywhere, including in online spaces.

Consent means both partners have a say in what they're comfortable doing together. It also means that, even if you (or your partner) have said "yes" to something in the past, you (or your partner) can absolutely say "no" to that same thing at any time. Even if you're already "in the moment." Even if you've already done it before. What you want matters. Find out more about consent at <https://knowyo.org/get-consent/>.

Prevention Heroes

Shout out to Lauren at Big Horn County for her amazing work with the TB Program!

APRIL 2022

340B

Last year the 340B OPAIS system began sending annual recertification email notices at the beginning of May. When the email is received, the primary contact will login to their OPAIS account to update the information for your office within two weeks of receiving the email. Sarah then completes the recertification attestation process for CDU.

Additionally, the clinic (sub-recipient) must meet the following criteria to be recertified under CDUs 340B designation:

- The sub-recipient's information must be complete, accurate, and correct.
- The sub-recipient meets all 340B Program eligibility requirements.
- The sub-recipient must comply with all requirements and any accompanying regulations including, but not limited to, the prohibition against duplicate discounts and diversion.
- The sub-recipients must maintain auditable records pertaining to compliance with the requirements.
- The sub-recipient acknowledges its responsibility to contact CDU as soon as possible if there is any change in 340B eligibility and/or breach by the sub-recipient.

CDU 340B guidance can be found at
