

# Statewide Share of Opioid Funds Annual Report

**January 31, 2023**

As the lead agency responsible for distributing and using the Statewide Share of Opioid Funds in accordance with the OneWyo Opioid Settlement Memorandum of Agreement (MOA), the Department of Health is required to publish an online report detailing the following for the preceding calendar year (2022):

- The amount of the Statewide Share of Opioid Funds received;
- The amount of the Statewide Share of Opioid Funds expended broken down by strategy, program, or project; and,
- The amount of any grants awarded, listing the recipients, amounts awarded, amounts disbursed, and disbursement terms, programs, strategies and projects funded.

The Statewide Share of Opioid Funds received by the Department to date is \$4,381,571.71. Of this total amount, the Department received \$3,552,386.91 in January 2023. The Department is including the January 2023 disbursement in this report although it was not received by the Department during the 2022 calendar year. While no settlement funds have been expended to date, the tables below illustrate the Department’s plans for expending the Statewide Share of Opioid Funds.

**Table 1:** Planned Use of the Statewide Share of Opioid Funds - Behavioral Health Division

Project Name	Planned Amount	Description
Treatment/MAT for OUD	\$1,165,000	Supplement existing and expand Community Mental Health Center (CMHC) resources for treatment of opioid use disorder (OUD) and any co-occurring substance use or mental health issues including Medication Assisted Treatment (MAT).
Telehealth Expansion		Expand telehealth availability to increase access to OUD treatment.
Priority Population Outreach		Expand access to treatment services for high priority populations including justice involved and women who are or may become pregnant.
Recovery Supports	\$450,000	Expand access to continuum of care recovery services.
Healthcare Administration Training	\$60,000	Training for healthcare providers, students, and other supporting professionals for

and Workforce Development		opioid treatment and recovery evidence-informed practices.
Quality Improvement	\$75,000	Improve oversight to ensure fidelity to evidence-informed practices and assist with quality improvement practices.
Plans of Safe Care	\$400,000	Increase county public health nursing (PHN) capacity where needed for plans of safe care (POSC), funding for DFS for implementation of POSC across Wyoming, and increase capacity for collaborative actions with CMHCs.
