

**Public and Tribal Notice**  
**Wyoming Department of Health**  
**1915(i) State plan Home and Community-Based Services for Psychosocial**  
**Rehabilitative Services**

Public notice is hereby given that the Wyoming Department of Health intends to submit a 1915(i) State Plan Home and Community-Based Services for psychosocial rehabilitative services to the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services. Psychosocial Rehabilitation services will follow the Substance Abuse and Mental Health Services (SAMHSA) evidence-based practice of the clubhouse-based service delivery model. Community-based Psychosocial Rehabilitation Service is a program that has members of the program, with staff assistance, engaged in operating all aspects of the clubhouse, including food service, clerical, reception, janitorial, and other member services such as employment training, housing assistance, and educational support. It is designed to alleviate a member's emotional or behavioral problems with the goal of transitioning the member to a less restrictive level of care, reintegrating the member into the community, and increasing social connectedness beyond a clinical or employment setting. The work-ordered day is designed to support the reintegration of individuals with SPMI, SMI, or SED into their communities, and support members in less restrictive levels of care. Copies of the Wyoming Medicaid State Plan will be available at the Department of Health, Division of Healthcare Financing.
