**Note 1:** Data is self-reported by mother at time of birth.

**Note 2:** National data reports teens as 15-19; a small number of births to teens younger than 15 did occur but these are not reported.

**Note 3:** Percentages are based on the total number of births recorded in the year. Percentages are rounded and may not add to 100% due to rounding error.

**Note 4:** In a few rare cases, mother's age was not recorded; therefore, mother's age totals may not match total births reported in other tables.
