Note 1: Data is self-reported by mother at time of birth.

Note 2: Participants may have marked unknown to number or dates of prenatal visits, resulting in a small number of births without care ratings.

Note 3: National data reports teens as 15-19; a small number of births to teens younger than 15 did occur but these are not reported.

Note 4: In a few rare cases, mother's age was not recorded; therefore, mother's age totals may not match total births reported in other tables.
