2021	205	69.3%	1,158	34.3%	481	18.8%	1,844	29.6%
2022	197	65.7%	1,064	33.2%	520	20.5%	1,781	29.4%

Note 1: Data is reported by the hospital where the birth occurred.

Note 2: National data reports teens as 15-19; a small number of births to teens younger than 15 did occur but these are not reported.

Note 3: Percentages are based on the total number of births recorded in the year. Percentages are rounded and may not add to 100% due to rounding error.

Note 4: In a few rare cases, mother's age was not recorded; therefore, mother's age totals may not match total births reported in other tables.
