**Note 1:** Death rates are per 100,000 population and age adjusted to the 2000 US Standard Population.

**Note 2:** Rates based on fewer than five events have been suppressed. Caution should be used in the interpretation of vital statistics rates which are based on a small population or a small number of events.

**Note 3:** Some deaths recorded in Carbon and Fremont Counties may not have been correctly completed pursuant to Wyoming Statute 35-1-418 (C), which requires non medical coroners to consult a competent physician when determining the cause of death.
