

# National Critical Access Hospital Quality Inventory and Assessment Completion Instructions

The purpose of the National Critical Access Hospital (CAH) Quality Inventory and Assessment (Assessment) is to learn more about CAH quality improvement (QI) infrastructure and activities, service lines offered, and related quality measures. The Assessment, which is the first of its kind at a national level, will be an opportunity to gather a wealth of information on QI processes from CAHs in a standardized manner, in order to enhance support to CAHs in quality improvement activities. Once collection is complete, hospitals will receive state and national comparison information related to the data collected through this Assessment.

This Assessment is a product of a partnership between the Federal Office of Rural Health Policy (FORHP) at the Health Resources and Services Administration (HRSA), and two HRSA awardees assisting with the [Medicare Rural Hospital Flexibility \(Flex\) Program](#), and the [Medicare Beneficiary Quality Improvement Program \(MBQIP\)](#): the [Flex Monitoring Team \(FMT\)](#) and [Stratis Health](#). We are distributing the Assessment in collaboration with State Flex Programs/State Offices of Rural Health and anticipate that it will take approximately 60 minutes to collect information and submit the Assessment.

**If you have any questions, please reach out to Megan Lahr with the FMT ([lahrx074@umn.edu](mailto:lahrx074@umn.edu)) or your [State Flex Coordinator](#).**

Hospitals are encouraged to complete the questions below with input from a variety of team members who are most familiar with quality improvement processes and quality measure reporting. If you do not know the answer to a question, please seek input from additional team members to be able to confidently answer each question. Examples of staff members who might be well-suited to contribute to this Assessment include quality staff, CAH CEOs/administrators, CNOs, and information technology staff.

When you submit the Assessment in Qualtrics, you will receive an email confirmation. The confirmation will include a copy of your responses to the Assessment (you can also download a copy of the Assessment from the final screen in Qualtrics).

System-Affiliated CAHs:

If your hospital is a part of a system, please answer all questions about *your hospital*. Each hospital is expected to complete one Assessment.
