Sign-up and/or log in to Docket® with email, Apple, or Google

Note: Docket® does *not* collect biometric data when using the app's Face ID and Android Biometric unlock capabilities. This feature is offered as an optional security feature.

1. Sign-up or log in.

Enter your email address and tap "Sign-up or Log In" to receive a sign-in link. Alternatively, you can access Docket® by tapping the Apple or Google button.

2. Check your spelling.

Be sure to confirm that your email address was spelled correctly. Then, check your email inbox on your phone for a Docket® account confirmation email.

3. Confirm your email.

Tap the "Confirm Email" button in the email titled, "Sign-up for Docket®" to proceed. Check your Junk folder if you do not see your email after 5 minutes.

Note: You *must* confirm your email using the *same* device you used to create your Docket® account.

4. Set-up your profile.

Enter your basic demographic info to search for your personal and/or family immunization records. Select "Use Face ID" or "Android Biometrics" for additional data security and privacy protections.

Where is Docket® supported?

Docket® is available to residents of Alaska, Idaho, Minnesota, New Jersey, Utah, and Wyoming. Coming soon to more states.
