OBJECTIVES

1. Recognize patient populations that will benefit from age-appropriate vaccination.
2. Recognize important concepts related to successful vaccine therapy and increasing immunization coverage rates.
3. Define strategies to prevent vaccine storage and handling errors.
4. Name three ways to utilize reports from within the WylR to monitor data quality and manage vaccine inventories.
5. Recognize innovations in vaccine technology and trends and apply them in practice.
6. Describe different communication techniques that teams can use to achieve successful vaccine therapy in individuals and the community.
