The Wyoming Cancer Program provides limited coverage for the purpose of screening and early detection of breast or cervical cancer.

If a breast or cervical cancer screening test is abnormal or suspicious, the program **may** cover appropriate diagnostic procedures until a final diagnosis is reached.

The following (Current Procedural Terminology) CPT codes listed are not all-inclusive and provide a general list of commonly used codes for the Wyoming Breast & Cervical Cancer Screening Program. These codes must be paired with an approved diagnosis code that is covered by the program.

When questions arise regarding the appropriate use of a CPT Code, please contact the program to discuss.
