Agenda

- Introduction
- About WYSERVES: Background slide
- Upcoming Provider Support Calls: WYSERVES UPDATES
- Participant Outreach Kicking off In January
- KWL Activity
- WYSERVES UPDATES - What has changed?
- Demo 5-10min
- Training Outreach and Expectations / Prepare to engage participants about WYSERVES
- Next Steps
- Q&A

Intro to Wyoming System for Enhanced Resources, Verification, Enrollment, and Services (WYSERVES)

This outreach session is designed to help providers get familiarized with **WYSERVES**, Wyoming's new Care and Case Management System (CCMS), and prepare you for a successful transition. During this session, you will:

- Understand **WHY WYSERVES is being introduced** and how it improves upon current systems.
- Learn **WHAT updates are introduced** and how it supports the services you deliver.
- Explore **WHERE key benefits and enhancements** to simplify and improve your coordination are situated,
- Know **HOW to get the right information** on timelines, training, and transition support.
- Engage in **open discussion**, ask questions, and share feedback to help shape ongoing improvements.

Wyoming System for Enhanced Resources, Verification, Enrollment, and Services (WYSERVES) Overview

WYSERVES is Wyoming's new **Care and Case Management System**, developed to modernize and bring together capabilities that previously existed across the Participant & Provider Portals, EMWS, and IMPROV legacy systems. As those systems evolved independently over time, it became harder to support consistent workflows and a shared view of participant information statewide. That is where we come in!

WYSERVES was designed to consolidate core functions—such as eligibility support, case management, service planning, authorizations, and reporting—into **one coordinated system**. By creating a shared platform for state staff, case managers, and providers, WYSERVES supports more consistent workflows, improved data quality, and better visibility across programs, while providing a foundation that can evolve with future policy and program changes.

Upcoming Provider Outreach Calls: WYSERVES UPDATES

- How can you stay updated on our Provider Outreach calls?
- Who can you reach out to for more questions? -Matt Crandall, Policy and Communications Unit Manager (matthew.crandall2@wyo.gov)

Participant Outreach

Kicking off in January 2026

Outreach is critical to building awareness, setting expectations, and supporting successful participation

Providers will play a key role by contacting participants directly using aligned, consistent messaging

A coordinated participant messaging approach supports clarity and consistency across providers

Participant feedback will be collected through surveys, with results reviewed **April–May 2026**

Participant engagement activities continue through **June 2026** to support sustained involvement

WYSERVES Updates

What we have, and what we are improving on constantly!

Unified CCMS Platform: Established a single system supporting eligibility, case management, provider workflows, and reporting.

Plans of Care & Services: Implemented and refined Plans of Care, service referrals, authorizations, and ongoing monitoring processes.

Provider Interactions: Enhanced provider workflows for receiving referrals, submitting responses, and completing required forms within WYSERVES.

Long-Term Services Support: Expanded functionality for LT and waiver processes, including LT101s, reconsiderations, extensions, and tracking.

Eligibility & Workflow Alignment: Improved alignment between eligibility determinations and downstream case management and service activities.

Reporting & Oversight: Delivered on-demand and scheduled reports to support operational, compliance, and program oversight needs.

Stability & Usability Improvements: Addressed defects, refined workflows, and incorporated user feedback through ongoing sprint updates.

Next Steps

Training/Outreach and Expectations

A formal training announcement will be distributed for WYSERVES implementations

Providers will receive a standardized email with training purpose, schedule, and registration details

Training is designed to prepare users before Go-Live with hands-on system experience

Sessions will include live Q&A to allow providers and staff to get answers to specific questions

Training will be delivered and tracked through the Learning Management System (LMS)

Providers will use the LMS to register, complete required courses, and track completion

Providers should keep an eye out for further communications and help spread the word internally

Early identification of required staff and participants to ensure timely registration are critical to readiness

Providers to Identify volunteers for UAT testing

Is there additional information you'd like to see regarding WYSERVES shared during provider support calls?

Open Up for Questions (Approx 10min)

Thank You
