

The Wyoming Department of Health, Communicable Disease Unit (CDU) manages HIV, chlamydia, gonorrhea, syphilis, hepatitis B virus, hepatitis C virus, and tuberculosis prevention, surveillance, linkage to care, and technical assistance for Wyoming. Below is a brief summary of services available from CDU.

Care and Prevention Planning Alliance (CAPPA)

- Statewide community planning group for HIV, chlamydia, gonorrhea, syphilis, and hepatitis B and C. Our CAPPA meetings bring together a diverse group of professionals, stakeholders, and population members with lived experience to provide insight on how to best meet the needs of Wyoming's population.

Communicable Disease Prevention Program

- CDU Testing Recommendations
 - The CDU Testing Recommendations have been revised to align with the latest CDC guidelines and the recent infection trends in Wyoming. These recommendations start with the national CDC guidelines and are then tailored based on risk factors collected during interviews with positive cases in Wyoming. As a result, the CDU Testing Recommendations are specifically designed to address how infections are spreading and presenting within our state's population. Laminated copies are available on the KnoWyo Shop.
- KnoWyo Shop
 - Prevention supplies are available at no cost for eligible locations.
 - Locations must be pre-approved before orders are fulfilled; allow three weeks for delivery on all KnoWyo Shop items. Some items, such as rapid tests and testing supplies, have eligibility criteria. If the eligibility criteria are unmet, the item(s) will not be fulfilled. Locations interested in ordering from the KnoWyo Shop may email cdusupplies@wyo.gov.
- CDU Monthly Newsletters
 - Program updates, training opportunities, and CDU Hero recognition.
- CDU Monthly Webinars
 - Topics are related to HIV, sexually transmitted infections (STIs), hepatitis, and TB prevention, testing, treatment, and linkage to care. Details are included in each CDU Monthly Newsletter.
- Tuberculosis (TB)
 - Financial assistance for TB-related costs, such as IGRAs, chest x-rays, liver function tests, and sputum cultures.
 - Medication assistance for TB treatment may be available for those who qualify. The prior authorization request form for this service can be found on the [CDU TB website](#).
 - Technical assistance related to TB risk, prevention, testing, treatment, and linkage to care.
 - Annual TB Cohort and Advisory Meeting for clinicians providing TB care and services.
- KnoWyo Social Media Pages
 - [Facebook](#) and [Instagram](#) pages provide routine posts on prevention, testing, treatment, and linkage to care.
- W[h]Y PrEP Matters [Website](#)

- Information and resources on Pre-Exposure Prophylaxis (PrEP) medication for HIV prevention.
- PrEP Prescriber Toolkit.
- PrEP access navigation.
- PEP/PrEP and hepatitis C treatment access navigation assistance. The referral form can be found on the [CDU STI Health Professional Resources](#).
- Expedited Partner Therapy (EPT) STI medications for eligible locations. Details regarding CDU EPT can be found at the bottom of the [CDU Prevention website](#).
- KnowWyo Vouchers Safety-Net Testing
 - Available to safety-net healthcare providers, including Wyoming public health offices, Title X Clinics, FQHCs, student health clinics, eligible non-profit clinics, and county correctional facilities. Testing sites are listed on the [KnowWyo.org](#) “Find a Clinic” tab.
 - CDU provides free rapid HIV and hepatitis C virus (HCV) tests for CLIA Waived Wyoming safety-net¹ testing sites in compliance with the current [KnowWyo Voucher Guidance](#).
 - CDU pays eligible KnowWyo Voucher testing sites \$15 per CDU rapid HIV test to perform the test and enter the demographics, risk, and results into the CDU data surveillance system.
 - CDU will reimburse eligible clinics for the cost (at Wyoming Public Health Lab rates) of approved HIV, STI, and hepatitis B & C tests for eligible patients. KnowWyo Voucher reimbursement decreases the cost of HIV, STI, and hepatitis testing to patients and allows clinics to utilize funding in other areas of patient care.
 - CDU promotes and advertises KnowWyo, linking patients to testing and additional clinic services at KnowWyo Voucher testing sites.

Communicable Disease HIV Treatment Program (CDTP)

- Medical and non-medical case management services for people living with HIV in Wyoming.
- Cost assistance for HIV-related medical services, medication, mental health care, substance use treatment, housing services, and other supportive services for eligible people in Wyoming living with HIV. Eligibility for CDTP is income-based. Additional information can be found on the [CDU HIV Treatment website](#).

Communicable Disease Surveillance Program

- Epidemiologists/Disease Intervention Specialists (DIS)
 - Interview, education, and partner services for gonorrhea, syphilis, HIV, hepatitis B, and hepatitis C cases.
 - Education and technical assistance for healthcare providers.
- Surveillance data and infographics are available on the [CDU Surveillance Program website](#).

Communicable Disease Unit Staff
